

# Textile Olympiad 2.0

## CASE FOR FIRST ROUND

Rita, a girl who lives in Gazipur, Bangladesh. She is a garments worker who is the only breadwinner of his family. Everything was going well but the pandemic called Covid-19 ruins all. Many people like Rita have been fired because of Covid-19 and they are lost today. Moreover, thousand of workers have been demonstrated on the streets throughout the country demanding arrear wages.

The government has recently announced a package for RMG sector which could only be used for paying salaries and allowances to workers and employees that BGMEA and garment owners does not think enough and garment owners are appealing more help.

### Additional information:

1. Bangladesh is expected to lose export revenue of about USD 6 billion this fiscal year.
2. 1 million of workers are fired and at least 46 factories have not paid workers salaries properly.
3. Garments owners have been complaining that they are not getting new orders from foreign Buyers.

**Find a suitable solution considering every issue above and make decision regarding the points below:**

1. What steps should BGMEA take to prevent layoffs? Will they work?
2. Can garment owners take a different approach than cutting workers?
3. Is the allocation from the government enough? Or it should be more?

### Clues:

1. We mentioned maximum 12 slides but you could add additional 3 or 4 slides if it required.
2. Keep your slides as simple as possible.
3. It is better to use high contrast colors on Texts, Figures and Graphics and white background is Preferred.
4. We request you to use larger font size: ~28 for inside the slide and ~40 for the slide title.
5. Present the highlights, you may use bullets but not the detail.
